

HYDRABREEZE

Basement Dehumidification System

Avoid that basement smell and protect against mold and mildew.

PROTECTION

Remove odors, prevent mold and stop mildew growth.

DURABILITY

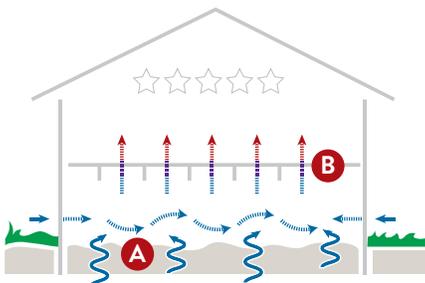

Designed for long life in damp basement conditions.

CONVENIENCE

Connects to drain; no need to constantly empty water.

PROTECT YOUR HEALTH & FAMILY

A. COOL, DAMP AIR

from mold and moisture in the basement

B. WARM, CONTAMINATED AIR

risks and escapes to become the air you breathe on the main level

STACK EFFECT

Over 50% of the air in the main living area of your home actually comes up from your basement, this is called the stack effect.

The stack effect is the movement of warm, dry air rising and escaping through the floors of your home, and the cooler, damp air finding its way into the lower levels to equalize pressure.

This stack effect contributes to High humidity, allergens, pest infestations, mold growth, musty odors, damage to property, among other poor indoor air quality issues.

BASEMENT DEHUMIDIFICATION

Ventilation and air conditioning alone cannot provide the protection offered by Helitech's Hydrabreeze high capacity dehumidifier. Hydrabreeze will not only remove the bad humidity from your basement, but it will replace it with conditioned air and will also help your HVAC system work more efficiently.

By keeping the relative humidity in your basement below the recommended 50% level, you will keep mold, mildew, and musty smells out of your home. Mold can't grow if the relative humidity is less than 60%, which also means dust mites can't cause issues to your family's health as they require warm humid air to thrive.

Less Wear & Tear with Hydrabreeze

DEHUMIDIFIER CYCLE COMPARISON

Standard portables need to start and stop more often to keep up with basement dampness, causing extreme wear and tear on compressors.

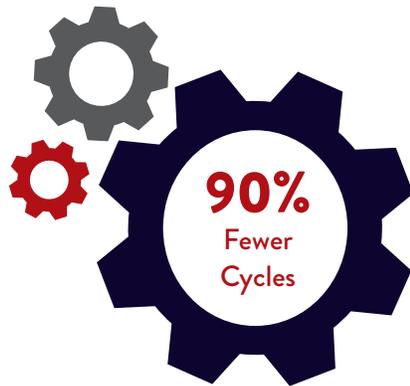

Brand	Capacity	Seasonal Cost	Warranty	Manufactured In
Hydrabreeze	70 pints	\$64.80	5 years	USA
Kenmore	70 pints	\$304.80	90 day limited	China
GE	70 pints	\$242.20	1 year limited	China
SoleusAir	70 pints	\$204.00	1 year limited	China

** Operating costs calculated by multiplying the average amount of actual daily run time, power consumption when running and local utility electric rate.*

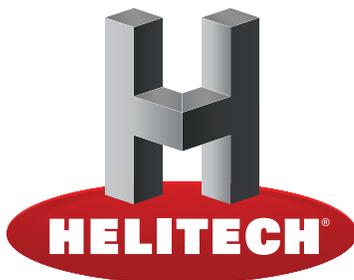

Save up to \$189 yearly on your electric bills versus using a portable dehumidifier.

COMMERCIAL-GRADE CONSTRUCTION • LOW MAINTENANCE • NO FILTERS TO CHANGE
HIGH CAPACITY • LONG-TERM PROTECTION • OPTION TO CONTROL OR REMOTE READOUT

Hydrabreeze	Leading Portable
16.8 Cycles Daily	175.2 Cycles Daily
4,032 Cycles Seasonally (8 months)	42,048 Cycles Seasonally (8 months)

All products were tested concurrently in actual basement conditions; NOT a lab test chamber. These were actual real-life operating comparisons.

OVER 100,000 HOMES HEALED, 5 DECADES STRONG
